About ALDI Australia

ALDI Australia provides customers with the highest quality groceries at permanently low prices. We do this by offering a limited yet carefully selected product range and working closely with business partners to maximise efficiencies to deliver quality and value to customers.

ALDI Australia operates more than 570 stores in six states and territories, directly employing more than 13,500 people and working with more than 1,000 Australian business partners each day. Since opening in 2001, ALDI has contributed an estimated \$30 billion to Australia's gross domestic product. We have an Australia first sourcing approach and these partnerships represent the most significant component of our contribution to the Australian economy.

ALDI's operating philosophy is based on the clear values: simplicity, responsibility and consistency. This is reflected in the way we interact with our people, our customers, our business partners, the communities in which we operate and the environment. This approach is essential to delivering the unique value proposition we offer Australian shoppers. We are committed to doing the right thing in every aspect of our operations and understand our responsibility to the environment, sustainable sourcing, community and health.

ALDI's Good Different approach means our customers can expect to find consistent and reliable value every time they shop with us.
